DETAILED ACTION

Allowable Subject Matter

1. Claims 12-19 and 21-25 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record teaches a composite comprising an optical transmission means embedded within a layer of composite material and a high quality optical interface surface and a micro-substrate. However, the prior art of record taken alone or in combination fails to teach or suggest locating means for locating position of the high-quality optical interface surface from an exterior of the composite material, and the locating means comprising a detectable position marker embedded within the composite material; and a depth marker provided by the micro-substrate; wherein the depth marker comprises the position marker in order to provide a easy, efficient and precise manufacturing process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
